

**1. How much floor-space do I need for a bowling center?**

The space necessary depends on the number of lanes (for example, 8 lanes: 800m<sup>2</sup>; 12 lanes: 2'000 m<sup>2</sup>)

**2. How much ceiling-room do I need?**

Minimum 3.5 meters and ideally 4.5 meters

**3. Which type of equipment do you recommend?**

We recommend Brunswick GS98 or GS-X equipment with Vector scoring system.

**4. Is the equipment guaranteed?**

Yes, we provide one year's warranty for bowling capital equipment, three years' warranty for scoring system and synthetic lanes.

**5. Can you install bowling lanes anywhere?**

Yes, as long as you respect the legislation and norms of the country concerned.

**6. How can I be sure that a particular location will be profitable?**

We carry out a feasibility study for you beforehand.

**7. Is a bowling centre a viable business proposition?**

Yes, a centre generates profits of 20% to 30% on average (based on the ratio between turnover and running costs), not including borrowing costs

**8. Is a bowling centre difficult to maintain?**

Maintenance is provided by a technician following specifications provided when the equipment is supplied

**9. Can you advise me on the architectural, technical, commercial and financial aspects involved?**

Yes, we look after your project from start to finish

**10. What are the costs in terms of human resources?**

These do not exceed 30% of total turnover.
